Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1,3,5,7-10,12,14,16,17,19-23, 28-29, and 32-34 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 24, 31, and 35 of copending Application No. 10/682,570. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 24, 31, and 35 disclose a pick up roller, transfer roller, application roller and pressure roller which are deemed as the claimed first through fourth rollers respectively.

As for claim 3, 7, 9,12,16, the applicator rollers are capable of applying the additive material to the inside major surface of the paper web with the claimed pattern in view that claimed apparatus has the same structural features as '570.

Art Unit: 1731

As for claims 5, 8, 17 the third roller of '570 provides for the claimed structural features and would be expected to have the claimed means in order to provide the claimed roller arrangement of '570.

As for claim 14, claim 35 of '570 disclosing the claimed bobbing and notes of wrapping tobacco filler with the web, which is the function of the claimed garniture.

As for claim 21, claim 35 notes of applying the additive material to a web winding it to a bobbing and then transferring it to a cigarette machine to make a cigarette.

As for claims 22, 28, and 32, the formed second bobbin of claim 35 is later used, after being formed, in a cigarette machine.

As for claim 23, 29, and 33-34, claim 24 of '570 notes providing a heat to the paper web and thus drying the additive material as claimed.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1731

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
